## Collaborative Approaches to the Treatment of Depression in the Pediatric Primary Care Setting

*October 13, 2022, 1:00pm – 2:00pm EST\**

Pediatricians and primary care providers have an important role in identifying and treating behavioral health conditions. During this presentation, Dr. Barry Sarvet will discuss treating depression in the pediatric primary care setting and the use of collaborative resources, such as The Florida Behavioral Health Collaborative Pediatric Hotline (1-866-487-9507).

### Learning Objectives:

1. Participants will review an algorithm for the treatment of depression in the pediatric primary care setting.
2. Participants will discuss the use of collaborative resources such as Child Psychiatry Access Programs can enhance quality of care for children with depression.

### **Speaker: Barry D. Sarvet, MD**

*Chair of Psychiatry, Baystate Health  
Professor and Chair, Department of Psychiatry  
UMass Chan Medical School - Baystate*
